Keysight Infiniium UXR-Series Oscilloscopes

Programmer's Guide

- Quick Key Adapter: 10 Buttons HID Keyboard using PIC18F14K50
- Infrared Red Transmitter using PIC12F675 microcontroller
- Disco Lights Project using PIC microcontroller
- Music player built on microcontroller AT91SAM7S256 with ARM core
- Striker using PIC16F676 Microcontroller
- How Seven Segment Display Multiplexing with PIC Microcontroller for Electronic Sign
- Digital Voltmeter Using PIC Microcontroller 16F877A and Seven Segments Display (0-20V)
- Interfacing Proteus with Matlab
- 3x3x3 LED Cube using PIC16F89 microcontroller
- The Pickster - USB Controller Frank using PIC18F14K50
- How to display sixteen characters on LCD using PIC18F877
- Easy Debugging Terminal using PIC18F84
- DMPPI - Extensible Multiple Device Programmer 1(Run C) using PIC microcontroller
- Simple USB to RS232 adapter on PIC182455
- PIC Harmonic Distortion Meter
- Frequency Counter using PIC18F877A Microcontroller
- Interfacing 16K2 LCD with PIC Microcontroller
- PIC LCD441V-T32 Emulator for Linux
- Balanced Line Attenuator
- PIC12 clone The Universal Microchip PIC Programmer / Debugger
- Interface vH44780 Character LCD with a PIC Microcontroller
- 30MHz DDS Sine/Square Function Generator based on the AD9833 using PIC18F262
- How to use Timers in PIC18F4550 Microcontroller
- (BManu™) Transistor Remote Control Transmitter using PIC microcontroller
- Introducing the BOLT PIC18F2550 Microcontroller Board using PIC microcontroller
- GSM Based Versatile Robotic Vehicle Using PIC Microcontroller
- Hard Drive Clock using PIC18F428
- The VGA Test Bed using PIC18F4550 Microcontroller
- Data logging with an EEPROM
- Automatic street light control by PIC microcontroller
- 3 Switch Musical Remote Control PIC18F262
- Line following robot using PIC18F84
- GPS REPEATERS SYSTEMS MONITOR using PIC18F876
- Low cost OLED module interface using PIC18F432
- Interfacing LCD Modules with PIC Microcontrollers
- Message Pump using PIC16F687 microcontroller
- 50 MHz frequency counter - voltage meter & SWR/PWR indicator using PIC18F71
- PIC Microcontroller timer Video Project
- Make your own USB LCD controller using PIC18F2550
- The One Chip Solution: RS485 PON Display with common software using PIC18F4680 microcontroller
- Mouse Interfacing and communication using PIC18F877
- Voice controlled wheelchair
- Microcontroller Aik Project Circuit
- Modulator: Onix LED Animation PIC18F432A
- Navigation Lights for Models for PIC12F629
- Loos's Mini Random Number Generator (mRNG) using PIC microcontroller
- PIC18F84 Serial Programmer
- LEARN HARDWARE FIRMWARE AND SOFTWARE DESIGN - 8085 DESCRIPTION
- Soundbox using PIC18F4680 Microcontroller
- Lab 5: Four 501 binary counter using PIC18F468
- Digital alarm clock using PIC18F877 microcontroller
- 80286 16884 PIC Frequency Counter File
- PIC18F877 up-down counter code and Proteus simulation
- Max the Super - powered by LEGO and PIC microcontroller
- Towers of Hanoi Recursion using PIC microcontroller
- PIC based WWW clock
- AnandBall version of the "Air display" adapted to be used in a bicycle using PIC18F428 microcontroller
- PIC18F2550 Microcontroller Project Board
- FTS-4 subframe encoder

Keysight infinium oscilloscopes programmer's guide. Keysight infinium programmer's guide.

Release Date Version Version Description 2022-05-26 06.72.00302 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version Version Description 2022-05-11 06.72.00301 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version Version Description 2022-05-11 06.72.00301 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version Version Description 2022-03-02 06.72.00001 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version Version Description 2021-12-15 06.71.00202 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version Version Description 2021-10-26 06.71.00001 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version Version Description 2021-10-05 06.70.00101 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version Version Description 2021-08-20 06.70.00001 System software for the Infiniium 9000 Series, S-Series, 90000 X-

Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2021-02-06 70.000001 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2021-06-16 06.60.00802 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2021-03-29 06.60.00504 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2021-04-29 06.60.00601 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2021-04-29 06.60.00601 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2021-03-29 06.60.00504 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2021-03-29 06.60.00504 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2021-02-12 06.60.00403 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2021-02-12 06.60.00403 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2020-11-18 06.60.00109 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2020-11-18 06.60.00109 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2020-09-09 06.55.00902 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2020-09-09 06.55.00902 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2020-08-28 06.55.00901 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2020-08-28 06.55.00901 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2020-06-25 06.55.00702 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2020-06-25 06.55.00702 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2020-04-24 06.55.00504 System software for the Infiniium 9000 Series, S-Series, 90000 Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 OS. For earlier versions, see Previous Versions above. Release Date Version 2020-03-20 06.55.00401 System software for the Infiniium 9000 Series, S-Series, 90000 Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 OS. Release Date Version 2020-03-20 06.55.00401 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 OS. Release Date Version 2020-02-03 06.50.01104 System software for the Infiniium 9000 Series, S-Series, 90000 Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 OS. Release Date Version 2020-01-02 06.50.01004 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 OS. Release Date Version 2019-11-25 06.50.00906 System software for the Infiniium 9000 Series, S-Series, 90000 Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 OS. Release Date Version 2019-11-25 06.50.00906 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 OS. Release Date Version 2019-09-18 06.40.01201 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2019-09-18 06.40.01201 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2019-08-08 06.40.01101 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2019-07-01 06.40.01001 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2019-07-01 06.40.01001 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2019-05-20 06.40.00801 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2019-05-20 06.40.00801 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2019-04-17 06.40.00714 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2019-04-17 06.40.00714 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2019-02-06 06.30.01102 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2019-02-06 06.30.01102 Version Description System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2017-05-09 06.00.00701 System software for the Infiniium 9000 Series, S-Series, 90000 X-Series, V-Series, and Z-Series oscilloscopes with the Windows 10 or Windows 7 operating system. The Infiniium 90000A Series supports the Windows 7 operating system only. Release Date Version 2017-02-24 05.75.00402 System software for the Infiniium 9000 Series, S-Series, 90000 Series, V-Series, and Z-Series oscilloscopes with the Windows 7 operating system. Release Date Version 2015-03-18 04.20.0017 This is the last version of the previous-generation user interface software for 90000 and 9000 Series oscilloscopes with the Windows XP operating system. Release Date Version 2014-06-18 04.60.0024 This is the last version of the previous-generation user interface software for 90000 and 9000 Series oscilloscopes with the Windows 7 operating system. Release Date Version 2014-06-18 04.60.0024 Version Description This is the last version of the previous-generation user interface software for 90000 and 9000 Series oscilloscopes with the Windows 7 operating system.
